2. RESEARCH

Research Nr. 1. European Administrative Law

Website: <https://blog.uclm.es/catedrajeanmonnet/research-grants/>

Person in charge: Dolores Utrilla Fernández-Bermejo.

Current status: 100%.

Description: European Administrative Law is the law that governs EU law administrative Implementation. This research deals with it from two perspectives. On the one hand, it is now internally developing from a rather unstructured body of rules towards a more or less rationalized order. Expounding substantive principles (legitimacy, effectiveness, good administration, etc.) and elucidating formal structures (rulemaking, single-case decisions, procedure, co-operation, etc.) are the main avenues of this process of doctrinal construction. On the other hand, European Administrative Law operates as an interface

between Global Law and the national legal orders. The external dimension of EU agencies and the procedures and forms of incorporation of global standards into EU law are the most important topics in this respect.

Impact: This project is related with the first part of a research project under the national competitive research program of the Spanish Government (2019-2021) on “Administrative law beyond the State” (PI: Luis Arroyo Jiménez) (2019-2021) (<https://blog.uclm.es/catedrajeanmonnet/2019/09/18/administrative-law-beyond-the-state/>). It allows us to understand and to critically assess the current development of European Administrative Law. In particular, (i) it promotes excellence in research on the two groups of issues that have been mentioned; (ii) it also enhances and structures future academic research on this topic; (iii) it enriches the debate between academics and stakeholders involved in European Administrative Law; and (iv) it consolidates the internationalization of the research activities of the Chair’s members. Deliverables Nr. 1 and 2 contain the results of this project. Deliverable Nr. 1 assures open access to the main results.

Research Nr. 2. Global Public Law

Website: <https://blog.uclm.es/catedrajeanmonnet/research-grants/>

Person in charge: Luis Arroyo Jiménez.

Current status: 100%.

Description: Many different actors of public, private and hybrid nature operate in the global arena. They produce rules and standards, implement them in particular cases and solve disputes between both public and private parties. Moreover, some of those actors are entrusted with the performance of tasks and functions related to executive governance. The set of rules, principles and doctrines that steer the latter in the global arena is often called Global Administrative Law or Global Public Law. European Administrative Law and Global Public Law are connected in significant ways. This interface gives rise to a rich communication flow of political impulses, legal techniques, and regulatory policies, that might be problematic in terms of legitimacy and effectiveness. The aim of this project is to explore these interactions and the problems stemming thereof.

Impact: This project is related with the second part of the research project under the national competitive research program that has been mentioned in Research Nr. 1. It lets us understand better and to critically assess the current development of Global Public Law. In particular, (i) it promotes excellence in research on Global Public Law, specifically on its relationship and interactions with European Administrative Law; (ii) it also enhances and structures future academic research on this topic; (iii) it enriches the debate between academics and stakeholders involved in EU law enforcement; and (iv) it consolidates the internationalization of the research activities of the Chair’s members. Deliverables Nr. 1 and 2 contain the results of this project. Deliverable Nr. 1 assures open access to the main results.

5. DISSEMINATION

Website

The chair website (Deliverable Nr. 4) helps to disseminate within and outside the University the activities and outcomes of the Chair. The website grants open access to the information on the celebrated and upcoming events, and to the research papers written by the academic staff. It also grants access to the teaching materials. This helps the chair to reach a wider public beyond the students at the School of Law and Social Sciences. The website is operative since September 2016.

Pre-Print Series of the *Jean Monnet* Chair

The Pre-Print Series of the *Jean Monnet* Chair of EU Administrative Law in Global Perspective contains working papers on European Administrative Law and Global Public Law. Since the papers are accessible by the general public, it contributes to the dissemination of the chair's research activities, and specially the results of Research No 1 and 2.

The “Luis Ortega Álvarez” Center for European Studies

The dissemination strategy also counts on the “Luis Ortega Álvarez” European Studies Center of the Castilla-La Mancha University (<http://blog.uclm.es/ceuropeos/>). Since the Center and the School of Law and Social Sciences are located in different cities, co-operation between the Center and the Chair generates synergies in terms of disseminating their respective activities and reinforces the impact of the University action in the field of EU studies at a regional and national level. Thus, the Center helps the Chair Academic Staff to disseminate its activities (@CEEUCLMTOLEDO) while, in turn, the Chair provides the Center with valuable academic and technical support (drafting programs and chairing panels in academic events, integrating prize award committees, etc.). Isaac Martín is Director of the Center and member of the Chair’s team, while the holder of the later is the Center’s Director of Research.

6. IMPACT

Implemented activities have so far benefited different target groups, both within and outside the University of Castilla-La Mancha.

First, students of the Law degree have benefited from curricula with a notable presence of EU law: 89 students have attended the general course on EU law (Teaching Nr. 1), 15 enrolled in the elective course on Economic Public Law (Teaching Nr. 2) and almost 38 have joined the Advanced Course on the European Union (Teaching Nr. 3).

Second, the Workshop on Global Public Law in Latin American Perspective (Event Nr 1) has allowed around almost 15 University professors and researchers to present the result of their on-going research projects on different areas of global public law, as well as to discuss the interplay between European and Latin American perspectives, fostering dialogue and interchange of ideas.

Third, a number of students at the School of Law and Social Sciences have had the opportunity to approach some of the most pressing issues within EU environmental and energy law in two workshops, in which both top specialists and young researchers in these fields of law have taken part (Events Nr 2 and 3).

Fourth, the general public at local and regional level has profited from having a University more open to European issues thanks to our Website, and to the *Jean Monnet* Lectures Series (Event Nr. 4).

Finally, young researchers have had more opportunities to develop their academic careers, both at a national and international level, engaging in research activities (Research Nr. 1 and 2), events (Events Nr 1, 2 and 3), and academic publications (Deliverables Nr. 1 and 2).
