

AYHD Newsletter

March 2026

Welcome to our monthly newsletter series providing you with all updates from the **Association for Young Historical Demographers!** The AYHD newsletter keeps you up to date with events, conferences, and vacancies in Historical Demography and other related fields. It also gives you a chance to publicise your research or events to a diverse audience. If you would like to contribute to the newsletter, you can email Emma (egd28@cam.ac.uk). Visit [our website](#) to sign up for future newsletters and get further information about the association. You can also find us on [Twitter](#) and [BlueSky](#).

From the AYHD Board

Reminder to help us help you!

The AYHD is exploring new ways to better support early career researchers and build up community outside of our individual institutions and shared conferences. We are hoping to organize a recurring virtual paper workshop to allow PhD students and early career researchers in historical demography and related fields the opportunity to share work in progress and get feedback from peers in a relaxed and supportive environment.

To do this, we need to hear from you!

Please fill out → [this poll](#) ← to indicate whether you would be interested in participating in a paper workshop as presenter or participant and what format would best suit your needs and development. We are also eager to hear any suggestions for how to make these meetings most useful to the community of early career researchers. You can also email Emma Diduch (egd28@cam.ac.uk).

Spotlight Article

Every newsletter we will spotlight one article or working paper by a young historical demographer or researcher in an adjacent field. Would you like to have your work shared or do you know a recent paper that deserves to be spotlighted? Send an email to Joris (joris.kok@ru.nl) with information on the research you would like to see shared.

This month's newsletter is highlighting two articles:

**Visualizing Victorian Manchester:
Granular Geocoding for Demographic Analysis**

Published in *Social Science History* by **Emily Chung** (University of Cambridge).

You can read the full article here: <https://doi.org/10.1017/ssh.2025.10116>.

and

**From Sink to Source:
Demographic Change and Early Health Transition in Bogotá, 1878-1938**

Working paper by **Carlos Andrés Brando** (Universidad de los Andes).

You can read the full article here: <https://hdl.handle.net/1992/77437>.
